Yes, we're rapidly being funneled into Central Planning, international

Communism, which for the time being will look normal right up until a

CBDC, Central Digital Bank Currency, is issued to replace dollars and the

Fed becomes the ONLY bank.

It's only a matter of time. 😊

Yes, it's apparent the Biden presidency is all about doing the work once

assigned to Hillary Clinton; completing the managed decline of

Constitutional protections and conforming the US economy to globalist

psychopath standards. This goal is all that matters now.

TY, @ISafeyet 😊

We had the switch to La Niña here after a Polar Vortex over Antarctica

The last period coldest for 160 yr

The last summer and winter coldest wettest

Now La Niña for summer = low temps, storms and winds

They will blame storms on climate

This is just natural weather

Antarctica's last six months were the coldest on record
